This UPWP was prepared as a cooperative effort of the U.S. Department of Transportation (USDOT), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Alabama Department of Transportation (ALDOT), and local governments in partial fulfillment of requirements in Title 23 USC 134 and 135, amended by FAST Act Sections 1201 and 1202, December 4, 2015. The contents of this document do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

Auburn-Opelika  
Metropolitan Planning Organization  
  
**FY2020 Policy Board and  
Advisory Committee Membership**

Policy Board

Gary Fuller, Chair	Mayor, City of Opelika
Ron Anders, Jr., Vice-Chair	Mayor, City of Auburn
David Canon	Councilman, City of Opelika
Tommy Dawson	Councilman, City of Auburn
Bill English	Probate Judge, Lee County Commission
Steve Graben	Region Engineer, ALDOT Southeast Region
Johnny Lawrence	Commissioner, Lee County
Mark D. Bartlett*	Administrator, FHWA Alabama Division
D.E. Phillips, Jr.*	State Local Transportation Engineer, ALDOT
Courtney Roberts*	Program Analyst, Federal Transit Administration

Technical Advisory Committee

Justin Hardee, Chair	County Engineer, Lee County
Scott Parker, Vice-Chair	City Engineer, City of Opelika
David Bollie	County Transportation Engineer, ALDOT Southeast Region
Ben Burmester	Auburn University Campus Planning
Mike Cannon	Transit Director, LRCOG
Forrest Cotten	Planning Director, City of Auburn
Brandy Ezelle	Traffic Engineer, City of Auburn
Alison Frazier	Engineering Service Director, City Engineer, City of Auburn
Mike Hilyer	Public Works Director, ESG
Rex Huffman	Tiger Transit Manager, Auburn University
William T. Hutto, Jr.	Director, Auburn University Regional Airport
Bill James	Public Safety Director, City of Auburn
Jay Jones	Sheriff, Lee County
Matt Mosley	Planning Director, City of Opelika
Jeffrey LaMondia	Civil Engineering Professor, Auburn University
John McEachern	Police Chief, City of Opelika
Lisa Sandt	Executive Director, LRCOG
Daniel Wyatt	Transportation Planner, LRCOG
R. Clint Andrews*	Transportation Planning Engineer, FHWA Alabama Division
Jim Buston, III*	Information Technology Director, City of Auburn
Michael Hora*	Assistant State Local Transportation Engineer, Planning, ALDOT
Steve Graben*	Region Engineer, ALDOT Southeast Region
Stephen Dawe*	Chief Technology Officer, City of Opelika
Richie LaGrand*	Chief Appraiser, Lee County
Courtney Roberts*	Program Analyst, Federal Transit Administration

Citizen Advisory Committee

Dana Camp	Auburn
Rex Griffin	Auburn

## MPO Resolution 2020-05

### **Auburn-Opelika Metropolitan Planning Organization (MPO) Amending the FY2020 Unified Planning Work Program (UPWP) for the Auburn-Opelika Metropolitan Planning Area**

**WHEREAS**, the Auburn-Opelika MPO is the organization designated by the Governor of the State of Alabama as being responsible, together with the State of Alabama, for implementing the applicable provisions of 23 USC 134 and 135 (as amended by FAST Act, Sections 1201 and 1202, December 2015); 42 USC2000d-1, 7401; 23 CFR 450 and 500; 40 CFR 51 and 93; and

**WHEREAS**, the U. S. Department of Transportation requires all urbanized areas, as established by the U. S. Bureau of the Census, doing area-wide urban transportation planning, previously submitted a Unified Planning Work Program as a condition for meeting the provisions of Title 23, U. S. Code, Section 134; and

**WHEREAS**, consistent with the declaration of these provisions, Lee-Russell Council of Governments Transportation Planning staff, in cooperation with the Bureau of Transportation Planning and Modal Programs of the Alabama Department of Transportation, has prepared amendments to the Unified Planning Work Program for Fiscal Year 2020; and

**WHEREAS**, pursuant to its duties, functions and responsibilities, the Auburn-Opelika Metropolitan Planning Organization (MPO), in session this 5<sup>th</sup> of February, did review and evaluate the aforementioned amendments to the FY2020 Unified Planning Work Program; now

**THEREFORE, BE IT RESOLVED** by the Auburn-Opelika Metropolitan Planning Organization (MPO) that the same does hereby endorse and amend said FY2020 Unified Planning Work Program (UPWP).

Adopted this 5<sup>th</sup> of February, 2020;

\_\_\_\_\_  
Chairman, MPO

## 1.0 INTRODUCTION

### 1.1 Overview – Planning Activities and Accomplishments

The Unified Planning Work Program (UPWP) is the instrument for coordinating federally-funded metropolitan transportation planning activities in the Auburn-Opelika MPO (AOMPO) Metropolitan Planning Area. The objective of the UPWP is the development of an integrated planning program which considers the planning activities of each modal group and coordinates those activities to produce a total transportation plan serving all segments of the population. The UPWP represents the budget and work tasks necessary to accomplish and maintain the transportation planning process within the Auburn-Opelika Metropolitan Planning Area (MPA) for Fiscal Year (FY) 2020, which is from October 1, 2019 to September 30, 2020.

Funding for transportation planning is a product of federal and local monies. Federal transportation funds – from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) - provide eighty percent (80%) of the funding for the local transportation planning process, which is administered by the Auburn-Opelika Metropolitan Planning Organization. Local governments provide a twenty percent (20%) funding appropriation to match the federal dollars allotted to the area.

### 1.2 Public Participation in UPWP Development

The public is encouraged to participate in the development of the UPWP. All AOMPO meetings are open to the public. At these meetings, the AOMPO committees review and approve the UPWP in draft and final form. Interested individuals may review and comment upon these documents in tandem with the MPO committees. Individuals may address their concerns to the MPO committees directly. The Transportation Planner at Lee-Russell Council of Governments (LRCOG) should be contacted to coordinate an address to any MPO committee and to obtain unapproved draft and final documents. Once the draft UPWP is approved each year, members of the public will be afforded a 14-day public comment period before approval in its final form. During the comment period, members of the public can submit their comments, concerns, and questions to the AOMPO. All comments received will be reviewed and, if contact information is given, responses will be delivered. Detailed public participation procedures are outlined in the FY2020-2023 Public Participation Plan (PPP) which can be found at <http://www.lrcog.com/mpo>.

FY2020 Program Year Public Participation Highlights:

- FY2020-2023 Public Participation Plan (PPP) – The FY2020-2023 PPP will be reviewed to ensure procedural and strategic effectiveness in providing citizens and interested parties reasonable and fair opportunities for participation in the local transportation planning process.
- Executive Order 12898 and Environmental Justice – Consideration will be given to minority and low-income populations in the MPO Planning Area with respect to disproportionately high and adverse human and health environmental effects as related to MPO programs.

- Disadvantaged Business Enterprise (DBE) – The MPO will ensure a demonstrated commitment to provide Disadvantaged Business Enterprises (DBE) the opportunity to compete for LRCOG contracts by providing all necessary information as requested and considering all contract proposals fairly and equally.

### 1.3 Scope of the Planning Process

The FY 2020 UPWP has been developed in accordance with the Fixing America’s Surface Transportation (FAST) Act as adopted by Congress in December 2015. According to federal law, the metropolitan planning process shall be a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas. Furthermore, as the decision-making body of the regional transportation network, MPOs will be encouraged to consult or coordinate with planning officials responsible for other types of planning activities affected by transportation, including planned growth, economic development, environmental protection, airport operations, and freight movement. The metropolitan planning process promotes consistency between transportation improvements at the state and local level, and local planned growth and economic development patterns.

As specified in 23 USC 134 and 135, and amended by FAST Act Implementation, December 2015, and with regard to previously established guidance found in 23 Code of Federal Regulations (CFR) 450.306, Metropolitan Planning Organizations (MPO) shall provide for consideration of projects and tasks that meet the following ten planning factors:

- A. *Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.*
- B. *Increase the safety of the transportation system for motorized and non-motorized users.*
- C. *Increase the security of the transportation system for motorized and non-motorized users.*
- D. *Increase the accessibility and mobility options available to people and for freight.*
- E. *Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.*
- F. *Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.*
- G. *Promote efficient system management and operation.*
- H. *Emphasize the preservation of the existing transportation system.*
- I. *Improve the resiliency and reliability of the transportation system, and reduce (or mitigate) the storm water impacts on surface transportation.*
- J. *Enhance travel and tourism.*

## 1.4 Title VI in the Work Program

The Auburn-Opelika Metropolitan Planning Organization is committed to ensuring public participation in the development of all transportation plans and programs. It is the overall goal of the MPO that the transportation planning process be open, accessible, transparent, inclusive, and responsive. As a continuing effort by the MPO to provide public access and the means by which to engage in the planning process, the MPO has established the following public participation goals for all documents and programs:

- (1) An Open Process – To have an open process that encourages early and continued public participation. All MPO and committee meetings are open to the public.
- (2) Easy Information Access – To provide complete and timely information regarding plans, programs, procedures, policies, and technical data produced or used during the planning process to the general public and the media. All MPO meeting announcements, documents, maps, and plans can be viewed at [www.lrcog.com](http://www.lrcog.com).
- (3) Notice of Activities – To provide timely and adequate public notice of hearings, meetings, reviews, and availability of documents.
- (4) Public Input and Organizational Response – To demonstrate consideration and recognition of public input and comments and to provide appropriate responses to public input.
- (5) An Inclusive Process – To encourage participation in the planning process by traditionally under represented segments of the community; low-income groups, minorities, persons with disabilities, and the elderly; and to consider the needs of these groups when developing programs, projects or plans.

Additionally, the AOMPO was and will be compliant with and follow all Title VI laws, processes, and programs to include the following:

- Civil Rights Act of 1964, 42 USC 2000d, et seq. - 42 USC 2000d which prohibits exclusion from participation in any federal program on the basis of race, color, or national origin. The MPO will provide an open, accessible, transparent, inclusive, and responsive public planning environment and will exclude no one from participation in MPO activities on the basis of race, color, or national origin.
- 23 USC 324 which prohibits discrimination on the basis of sexual orientation, adding to the landmark significance of 2000d. This requirement is found in 23 CFR 450.334(1).
- Rehabilitation Act of 1973, 29 USC 794 which prohibits discrimination on the basis of a disability, and in terms of access to the transportation planning process.
- Americans with Disabilities Act of 1990 which prohibits discrimination based solely on disability. ADA encourages the participation of people with disabilities in the development of transportation and paratransit plans and services. In accordance with ADA guidelines, all meetings conducted by the MPO will take place in locations which are accessible by persons with mobility limitations or other impairments.
- Executive Order 12898 or referred to as *Environmental Justice*, which requires that federal programs, policies, and activities affecting human health or the environment will identify and avoid disproportionately high and adverse effects on minority or low-

income populations. The intent was to ensure that no racial, ethnic, or socioeconomic group bears a disproportionate share of negative environmental consequences resulting from government programs and policies.

- Language Assistance Plan which is required by Title VI of the Civil Rights Act of 1964, Executive Order 13166, and FTA Circular C 4702.1B, October 2012. The Auburn-Opelika MPO has completed a Four Factor Analysis of the Auburn-Opelika Metropolitan Planning Area to determine requirements for compliance with the Limited English Proficiency (LEP) provisions. Based on analysis, the MPO has identified a population within the MPA that may require MPO assistance in participating in the planning process. A Language Assistance Plan has been developed and is documented in the FY2020-2023 Public Participation Plan which can be accessed in Appendix 6.9 of the LRTP or at the following: <http://www.lrcog.com/2013%20Public%20Participation%20Plan.pdf>.

### 1.5 Planning Emphasis Areas

On March 18, 2015, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) jointly issued the following Planning Emphasis Areas for FY2019 UPWPs in order to reflect the renewed focus on transportation planning brought about by the FAST Act Implementation:

1. FAST Act Implementation - *Transition to Performance Based Planning and Programming:*

FAST Act includes a mandate for performance based planning and programming within the transportation planning process. Currently, the UPWP includes the *Livability Principles and Indicators* performance measure, which was developed by FHWA prior to FAST Act being signed into law, as the first in a new series of legislated performance measures. The Auburn-Opelika MPO will fully implement the FAST Act performance management approach as performance based planning and programming measures are developed and published (Tasks 3.4.2, 3.6.1, 3.6.2, and 3.8).

2. Models of Regional Planning Coordination - *Promote Cooperation and Coordination Across MPO Boundaries and Across State Boundaries Where Appropriate to Ensure a Regional Approach to Transportation Planning:*

The Auburn-Opelika MPO will work with transportation officials, staff, and stakeholders to promote regional cooperation and coordination as the transportation planning process is intended to be regional in scope because transportation systems transcend political boundaries. Furthermore, the Bicycle and Pedestrian Plan, Transportation Improvement Program (TIP) and Long Range Transportation Plan (LRTP) acknowledges consistency with other plans that include transportation elements and both document all *regionally significant projects* that are modeled in the MPO's transportation network (Tasks 3.6.1., 3.6.2, and 3.6.4).

3. *Ladders of Opportunity - Access to Essential Services-As a Part of the Transportation Planning Process, Identify Transportation Connectivity Gaps in Access to Essential Services:*

The Auburn-Opelika MPO will continue to identify transportation connectivity gaps in accessing essential services. Essential services include employment, health care, schools/education, and recreation. The MPO could achieve this by evaluating the effectiveness of public participation plans for engaging transportation disadvantaged communities in the transportation decision making process; updating the Lee-Russell Coordinated Human Service Public Transportation Plan; and assessing the safety and condition of pedestrian and bicycle facilities if/when needed. (Task 3.4.3, 3.6.3, and 3.6.4).

### 1.6 Livability Principles and Indicators

Increasingly, federal and state agencies are using Performance Measures as a way of ensuring greater accountability for the expenditure of public funds in an ever growing number of programs and activities across a variety of disciplines. Within the transportation sector and the planning processes associated with transportation infrastructure development, ALDOT has adopted the Livability Principles and Indicators as a sustainability measurement against future actions.

All planning tasks must be measured against these **Livability Principles**:

1. *Provide more transportation choices*
2. *Promote equitable, affordable housing*
3. *Enhance economic competitiveness*
4. *Support existing communities*
5. *Coordinate policies and leverage investment*
6. *Value communities and neighborhoods*

As a measure of the sustainability of these principles, the MPO will provide the following **Livability Indicators** using tables, charts, or Geographic Information Systems (GIS) mapping tools in the Long Range Transportation or Regional Transportation Plan (LRTP/RTP), Transportation Improvement Program (TIP), Public Participation Plan (PPP)/Public Involvement Plan (PIP), Bicycle and Pedestrian Plan, Congestion Management Process Plan (CMPP) (if applicable), and Air Quality Conformity Report (if applicable):

1. *Percent of jobs and housing located within one-half (1/2) mile of transit service;*
2. *Monthly housing costs as a percentage of household income in the past 12 months;*
3. *Percent of vehicles available per occupied housing unit;*
4. *Percent of workforce living within a thirty (30) minute or less commute from primary job centers;*

5. *Percent of population employed in production, transportation and material moving;*
6. *Percent of industry engaged in transportation and warehousing; utilities;*
7. *Percent of FY2016-FY2019 MPO transportation projects where more than one federal funding source is utilized;*
8. *Work commute modal choice by percent.*

## 1.7 Transportation Performance Management

MAP-21 and the FAST Act created a performance-based surface transportation program with requirements for State Departments of Transportation, Metropolitan Planning Organizations, and transit agencies. Along with DOT's, FHWA has required MPOs to adopt targets or accept the state target for the following categories:

- Serious Injuries per Vehicle Miles Traveled, Fatalities per vehicle miles Traveled, Total Serious Injuries, Total Fatalities, Non-Motorized Fatalities and Serious Injuries;
- Percentage of Pavement on the Interstate in Good Condition, Percentage of Pavement on the Interstate in Poor Condition, Percentage of Pavement on Non-Interstate NHS in Good Condition, Percentage of Pavement on Non-Interstate NHS in Poor Condition, Percentage of Bridge Decks on the Non-Interstate NHS in Good Condition, Percentage of Bridge Decks on the Non-Interstate NHS in Poor Condition;
- Percentage of Person-Miles Traveled on the Interstate that are Reliable, Percentage of Person-Miles Traveled on the Non-Interstate NHS that are Reliable, Truck Travel Time Reliability Index, Annual Hours of Peak Excessive Delay Per Capita, Percent of Non-Single Occupancy Vehicle (SOV) Travel, and Total Emissions Reduction.

FTA's final rule defined the term "state of good repair" (SGR) and established a minimum Federal requirement for transit asset management. This requirement applies to all recipients and sub-recipients who own, operate, or manage public transportation capital assets. Three SGR performance measures include:

- Rolling Stock (Revenue Vehicles): % by type that exceed Useful Life Benchmark (ULB);
- Equipment (over \$50,000): % of non-revenue service vehicles by type that exceed ULB;
- Facilities (FTA Sponsored): % rated less than 3.0 on the TERM scale.

## **2.0 ORGANIZATION and MANAGEMENT**

### **2.1 MPO Structure | Participating Governments | Roles and Agreements**

The Auburn-Opelika MPO (AOMPO) was formed in 1982 after the 1980 Census established the population of the Auburn-Opelika Urbanized Area at 51,823. The 2010 Census established the population for the Auburn-Opelika Urbanized Area at 74,741. The Auburn-Opelika Urbanized Area encompasses parts of the City of Auburn, the City of Opelika, and Lee County. Lee-Russell Council of Governments (LRCOG) manages and maintains the eligibility of the AOMPO to receive federal transportation funds. The AOMPO comprises the Policy Board, the Technical Advisory Committee, and the Citizen Advisory Committee.

The Policy Board serves as the policy and decision-making body of the AOMPO. Through the transportation planning process, the Citizen Advisory Committee and the Technical Advisory Committee advise the Policy Board on transportation projects and programs. The Policy Board submits approved projects and programs to the Alabama Department of Transportation, and the Federal Highway Administration. Policy Board members are designated by their positions in the City of Auburn, the City of Opelika, Lee County, the Alabama Department of Transportation and the Federal Highway Administration. The Policy Board comprises seven voting members and two non-voting members.

The Technical Advisory Committee (TAC) provides technical assistance and input to the various planning elements involved in the transportation planning process. TAC members are designated by their positions in the City of Auburn, the City of Opelika, Lee County, Auburn University, the Alabama Department of Transportation, the Federal Highway Administration, the Federal Transit Administration, and LRCOG.

The Citizen Advisory Committee (CAC) serves as a formal means through which citizens may participate in the transportation planning process. The CAC offers opinions and suggestions to the TAC and MPO Policy Board on transportation planning documents and issues. The CAC comprises fifteen members; the City of Auburn, the City of Opelika, and Lee County each appoint five representatives to serve on the CAC.

In the course of normal business, the MPO often must enter into various agreements. From time to time, the MPO may also enter into contractual agreements for services, such as development of the Long Range Transportation Plan.

### **2.2 State and Federal Certification Findings and Resolutions**

State or federal certification findings and resolutions refer to MPO deficiencies identified by a joint review process and corrective actions prescribed to correct those deficiencies. The Auburn-Opelika MPO is not a Transportation Management Area (TMA) and, therefore, will not receive a formal Federal Certification.

### **3.0 WORK PROGRAM**

The UPWP is divided into eight (8) tasks which comprise the functions necessary for local transportation and transit planning. The work of each task will be carried out by the MPO staff at Lee-Russell Council of Governments (LRCOG) with the assistance of the Alabama Department of Transportation (ALDOT).

UPWP Tasks:

3.1 Administration

3.2 Data Collection and Analysis

3.3 UPWP

3.4 Public Involvement

3.5 Environmental Mitigation and Streamlining

3.6 Transportation Systems

3.7 Education and Training

3.8 Transportation Safety and Security Planning

Each task or subtask is subdivided into the following categories:

- Objectives
- Previous Work
- Proposed Work
- Products
- Staffing
- Schedule
- Funding Source

## **3.1 Administration**

### 3.1.1 Administration Duties

#### Objectives

- To coordinate and monitor transportation planning activities throughout the Auburn-Opelika Metropolitan Planning Area (MPA).
- To ensure that all transportation planning tasks are responsive to the rules and regulations of FAST Act, the Alabama Department of Transportation, the MPO, and community needs.
- To coordinate the updating of Americans with Disabilities Act (ADA) Transition Plans by the local jurisdictions within the AOMPO area.

#### Previous Work

- MPO committee meetings were held to review and adopt reports, resolutions, documents, plans, and programs.
- Staff responded to requests and answered questions from individuals and agencies concerning transportation planning issues in the AOMPO area.
- Staff maintained files, submitted required reports, developed plans, and completed other transportation planning activities.

#### Proposed Work

- MPO meetings will be convened throughout the year to prepare, review, and adopt various transportation plans, programs, and activities of the Auburn-Opelika Metropolitan Planning Organization.
- MPO staff will perform all management and administrative activities necessary to retain federal and state funding, such as submitting reports and providing technical assistance to member governments and groups.
- MPO staff will respond in a timely manner to transportation planning requests from individuals and/or agencies.
- MPO Staff will work with the municipalities in the MPO to develop and update the Americans with Disabilities Transition Plans to ensure transportation facilities are in compliance with the Americans with Disabilities Act.

#### Products

- Adoption of various MPO resolutions, plans, programs, work activities, federal grants, and state grants through organized meetings and the public involvement process.
- Efficient administration and management of the MPO that is compliant with State and Federal regulations.

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$102,260
LOCAL	\$25,565
<b>TOTAL</b>	<b>\$127,825</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.1.2 Continuity of Operations Plan (COOP)

#### Objectives

- To prepare for the continued function and operation of the local transportation planning process in the event of a natural or man-made disaster

#### Previous Work

- The current Continuity of Operations Plan (COOP) was reviewed and updated as needed. Original was approved in 2006.
- A workplace safety kit was established and maintained.
- Equipment, supplies, and software were purchased as needed.

#### Proposed Work

- The Continuity of Operations Plan (COOP) will be reviewed and updated, as needed in FY2020, as a part of the COOP maintenance program.
- The workplace safety kit will be under continuing maintenance.
- Equipment, supplies, and software will be purchased as needed.

#### Product

- A sound preparedness plan designed to minimize interruption of the local transportation planning process in the event of a natural or man-made disaster

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$1,000
LOCAL	\$250
<b>TOTAL</b>	<b>\$1,250</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.2 Data Collection and Analysis

#### 3.2.1 Database Maintenance

##### Objectives

- To maintain the necessary data for input into AOMPO transportation planning documents, primarily the Transportation Improvement Program (TIP) and the Long Range Transportation Plan (LRTP) Update

##### Previous Work

- As a part of the Continuity of Operations Plan (COOP), LRCOG maintained a Windows-based server with two data protection measures: (1) a redundant array of independent disks (RAID), and (2) an automated external backup system.

##### Proposed Work

- LRCOG will store and maintain data in a private cloud service that creates a secure and customized environment. Data will be regularly backed-up to multiple offsite Enterprise-Class Data Centers. In the event of a disaster, employees will have immediate access to their desktops from another location. This new environment will meet the COOP requirement to have remote and off-site backup.

##### Product

- A reliable data storage environment that can be reinstated should a hardware malfunction or data loss occur

##### Staffing

- Lee-Russell Council of Governments
- IT Consultant

##### Schedule

- Ongoing activities throughout the fiscal year

##### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$5,098
LOCAL	\$1,275
<b>TOTAL</b>	<b>\$6,373</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.2.2 Data Collection

#### Objectives

- To collect the necessary data for input into AOMPO transportation planning documents, primarily the Transportation Improvement Program (TIP) and the Long Range Transportation Plan (LRTP) Update

#### Previous Work

- Census updates were added to the existing Census information on file.
- Local government data were collected as a part of the 2040 LRTP update process.

#### Proposed Work

- LRCOG will maintain the current data inventory and work to update and augment the data as new data are published.
- The MPO will purchase socioeconomic data and any other necessary and relevant data needed to support the 2045 LRTP update process.
- The MPO will collect, prepare, and present *Livability Indicator* data as described on page 5. This work task is in response to an FHWA directive to ALDOT Metropolitan Planning on May 2<sup>nd</sup>, 2012. The collected data will be presented in the following planning documents: Long Range or Regional Plan, Transportation Improvement Program, Public Participation Plan, Congestion Management Plan (TMAs only), and Bicycle and Pedestrian Plan. The data to be provided include:
  1. Percent of jobs and housing located within one-half (1/2) mile of transit service
  2. Percent of household income spent on housing and transportation
  3. Percent of workforce living within a thirty (30) minute or less commute from primary job centers
  4. Percent of transportation investment dedicated to enhancing accessibility of existing transportation systems
  5. Percent of transportation projects where more than one federal funding source is utilized
  6. Percent of housing located in walkable neighborhoods with mixed use destinations located nearby

#### Product

- A current, comprehensive, and proactive transportation planning data catalog

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$17,174
LOCAL	\$4,294
<b>TOTAL</b>	<b>\$21,468</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.2.3 Geographic Information System (GIS)

#### Objectives

- To develop and maintain the necessary Geographic Information System (GIS) data for input into AOMPO transportation planning documents, primarily the Transportation Improvement Program (TIP), and the Long Range Transportation Plan (LRTP) Update

#### Previous Work

- The MPO utilized GIS to develop and maintain spatial data (e.g., census, socioeconomic, land use, traffic volume) for use in local transportation planning.
- The MPO updated and purchased computer hardware and software for use in AOMPO-related GIS and administrative applications.

#### Proposed Work

- A GIS will be used to develop and maintain spatial data for use in local transportation planning to improve transportation resiliency and reliability.
- The MPO will continue to update and purchase computer hardware and software for use in AOMPO-related GIS and administrative applications.
- Review and possible modification of assigned roadway functional classifications within the MPO Study Area.
- ESRI software, licenses, and maintenance will be purchased as needed in the approximate amount of \$10,000.00.

#### Product

- A modern and mature GIS capable of serving the on-going transportation planning process and supporting Travel Demand Model development

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$36,356
LOCAL	\$9,089
<b>TOTAL</b>	<b>\$45,445</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.2.4 Traffic Analysis Zones, Traffic Models, and Traffic Count Inventories

#### Objectives

- To collect, develop, and maintain the necessary traffic data for input into AOMPO transportation planning documents, primarily the Transportation Improvement Program (TIP) and the Long Range Transportation Plan (LRTP)

#### Previous Work

- Traffic count data were obtained from ALDOT in digital (GIS) and hardcopy form.
- Traffic analysis zones (TAZs) were reviewed during the 2040 LRTP update process.
- A travel demand model was developed as a part of the 2040 LRTP update process.

#### Proposed Work

- Traffic count data will be obtained from ALDOT as available.
- Traffic count data can/will be shared with local member governments.
- Traffic analysis zones (TAZs) will be reviewed during the 2045 LRTP update process.
- A travel demand model will be developed as a part of the 2045 LRTP update process.

#### Product

- A collection of current traffic data that will be used to drive transportation planning functions

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$816
LOCAL	\$204
<b>TOTAL</b>	<b>\$1,020</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.3 UPWP

#### Objectives

- To establish a Unified Planning Work Program (UPWP) that reflects the budget and work tasks necessary to meet the transportation planning needs of the AOMPO urbanized area

#### Previous Work

- The AOMPO developed the Draft and Final FY2019 UPWP in accordance with all rules and regulations set forth by FHWA and ALDOT.
- The Draft FY2019 UPWP was submitted June 2018 and the Final FY2019 UPWP was submitted August 2018.

#### Proposed Work

- The AOMPO will develop a comprehensive FY2020 UPWP, in accordance with all rules and regulations set forth by FHWA and ALDOT, which will guide and support the transportation planning process in the Auburn-Opelika Urbanized Area.

#### Products

- The UPWP development process will produce Draft and Final FY2020 UPWP documents according to the schedule below.

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Draft FY2020 UPWP due by June 2019
- Final FY2020 UPWP due by August 2019

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$7,617
LOCAL	\$1,904
<b>TOTAL</b>	<b>\$9,521</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.4 Public Involvement

#### 3.4.1 Public Information Officer (PIO)

##### Objectives

- To have an appointed spokesperson on staff to provide and disseminate transportation planning information to citizens and other interested parties within the MPO area

##### Previous Work

- The AOMPO has no appointed PIO; the LRCOG Transportation Planner serves as the de facto PIO.
- The MPO maintained a webpage dedicated to information on the local transportation process.
- The MPO posted flyers in public places and placed meeting dates and times in the Community Calendar section of the Opelika-Auburn News for each set of MPO meetings.
- The MPO placed newspaper display ads regarding public comment periods for the Bicycle and Pedestrian Plan, UPWP, TIP, LRTP, and PIP.

##### Proposed Work

- LRCOG’s Transportation Planner will continue to serve as the de facto PIO and will ensure that the public has access to information on the transportation planning process.
- The MPO will continue to maintain a webpage dedicated to information on the local transportation process as a way to enhance and promote tourism.
- The MPO will post flyers in public places and place meeting dates and times in the Community Calendar section of the Opelika-Auburn News for each set of MPO meetings.
- The MPO will place newspaper display ads regarding public comment periods for the Bicycle and Pedestrian Plan, UPWP, TIP, and LRTP.
- The MPO will participate with the City of Auburn’s “Travel with Care” campaign.

##### Product

- An AOMPO representative charged with the dissemination of transportation planning information to the public.

##### Staffing

- Lee-Russell Council of Governments

##### Schedule

- Ongoing activities throughout the fiscal year

##### Funding Source

FUNDING SOURCE	AMOUNT
PL	\$3,019
LOCAL	\$755
<b>TOTAL</b>	<b>\$3,744</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.4.2 Public Participation Plan (PPP)

#### Objectives

- To define the methods and actions the MPO employs in providing citizens and interested parties reasonable and fair opportunities for participation in the metropolitan transportation planning process and to ensure those methods and actions follow forthcoming performance management approach requirements

#### Previous Work

- The draft 2013 PPP was approved by the MPO in January 2014.
- The final 2013 PPP was approved in May 2014.
- The 2008 Public Involvement Plan (PIP) and the 2006 PIP preceded the 2013 PPP.

#### Proposed Work

- LRCOG will review the effectiveness of the procedures and strategies contained in the PPP to ensure a full and open public participation process in local transportation planning.
- The MPO will continue to include the Livability Principles and Livability Indicators in the PPP and insure that agencies and the public have full access to documents and data as requested. The most current available data (as shown) used in the operational plans (Long Range, TIP, Congestion Management, Bicycle and Pedestrian Plan, Conformity Report) will be provided in the Plan.
- The MPO will follow forthcoming performance management approach requirements.

#### Product

- A defined methodology to encourage and ensure public participation in the transportation planning process that meets all state and federal requirements

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$1,019
LOCAL	\$255
<b>TOTAL</b>	<b>\$1,274</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.4.3 Title VI Planning

#### Objectives

- To ensure minority and low-income citizens in the MPO area are offered reasonable and fair opportunities to be involved in the metropolitan transportation planning process

#### Previous Work

- Transportation planning meetings were advertised in the newspaper with the largest circulation in the MPO area.
- Transportation planning meeting flyers were placed in parts of the MPO area known to include minority and low-income citizens in an effort to inform those citizens of opportunities to participate in the transportation planning process.
- LRCOG was audited for Title VI compliance by ALDOT Title VI staff in August 2014.
- The AOMPO filed its FY2017 Title VI report and self-certification to ALDOT in September 2017.

#### Proposed Work

- Transportation planning meetings will be advertised in the newspaper with the largest circulation in the MPO area.
- Transportation planning meeting flyers will be placed in parts of the MPO area known to include minority and low-income citizens in an effort to inform those citizens of opportunities to participate in the transportation planning process.
- MPO staff will ensure that it complies with the Civil Rights Act of 1964, Executive Order 13166, and FTA Circular C 4702.1B, October 2012, and that it fulfills the requirements under 4702.1B of the Limited English Proficiency (LEP) provisions. The MPO will prepare and maintain a Language Assistance Plan in accordance with Circular 4702.1B
- The AOMPO will file its FY2018 Title VI report and self-certification to ALDOT in a timely fashion.

#### Product

- A local transportation planning process that strictly adheres to the Title VI requirements of the Civil Rights Act of 1964

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- The Title VI report and self-certification will be due January 2019.

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$740
LOCAL	\$185
<b>TOTAL</b>	<b>\$925</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.4.4 Environmental Justice

#### Objectives

- To provide all citizens and other interested parties with reasonable and fair opportunities to be involved in the metropolitan transportation planning process

#### Previous Work

- LRCOG staff identified low-income and minority population areas within the MPO planning area. Flyers were posted in those areas advertising the availability of the UPWP, TIP, LRTP, and PIP for public comment by residents in those areas.

#### Proposed Work

- LRCOG will continue to work to identify environmentally sensitive groups to include (but not limited to) low-income and minority populations, transportation disadvantaged individuals, senior populations, and populations of limited English proficiency as updated Census data become available. Publications will be available to the public both in print and online when practical. In cases where a specific group may be disproportionately affected by a transportation project, effort will be made to provide information to and receive input from the affected group. Both conventional and unconventional strategies may be utilized to include these groups in the transportation planning process.

#### Product

- Identification of traditionally underserved groups in order to encourage their involvement in the transportation planning process

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$1,019
LOCAL	\$255
<b>TOTAL</b>	<b>\$1,274</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.4.5 Disadvantaged Business Enterprise (DBE)

#### Objectives

- To consider available Disadvantaged Business Enterprises (DBE) for contracts financed in part or in whole with federal funding

#### Previous Work

- Disadvantaged Business Enterprises have been used by LRCOG in the past for computer/network administration.

#### Proposed Work

- LRCOG staff will provide information on the DBE process at the request of individual groups and agencies.

#### Product

- A demonstrated commitment to provide Disadvantaged Business Enterprises the opportunity to compete for LRCOG contracts

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Activities completed as needed throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$1,019
LOCAL	\$255
<b>TOTAL</b>	<b>\$1,274</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.5 Environmental Mitigation and Streamlining

#### 3.5.1 Air Quality Planning

##### Objectives

- The Environmental Protection Agency (EPA) establishes tolerance limits on ground-level and atmospheric pollutant concentrations through enactment of the National Ambient Air Quality Standard (NAAQS) for particular pollutants. An Air Quality plan is required for planning areas in non-attainment status or those areas anticipating non-attainment. This task provides for Air Quality Conformity Determination actions that may be required of the MPO. *The AOMPO area is not currently in non-attainment status, but could be in non-attainment status upon modifications to EPA air quality standards.*

##### Previous Work

- MPO staff began planning for non-conformity status by researching relevant standards and requirements as well as attending training classes on EPA’s MOVES2010 non-point source emissions simulation software.

##### Proposed Work

- MPO staff will attend FHWA, FTA, ADEM, EPA, and ALDOT Air Quality training courses and seminars as necessary, including seminars on software used to determine Air Quality conformity/non-conformity status such as Cube Voyager. This task will also support Transportation Systems plan development, as applicable: LRTP, TIP, Congestion Management, Public Participation, Freight, Bicycle/Pedestrian, Transit Development, and Air Quality Conformity Determination. A staff member or the PIO will be assigned as spokesperson on air quality and will become fluent in conformity/non-conformity language and issues.

##### Product

- Staff familiarity with current guidelines and requirements

##### Staffing

- Lee-Russell Council of Governments
- State and Federal Agency Training Personnel

##### Schedule

- Training dates will be established as sessions are announced.

##### Funding Source

FUNDING SOURCE	AMOUNT
PL	\$500
LOCAL	\$125
<b>TOTAL</b>	<b>\$625</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.5.1.1 Air Quality Conformity Public Involvement

#### Objectives

- This task provides for public involvement activities related to air quality conformity determination requirements

#### Previous Work

- Not applicable; no previous work required

#### Proposed Work

- If Lee County is designated as non-attainment for ground level ozone (O<sub>3</sub>) or particulate matter (PM<sub>2.5</sub>), MPO staff will perform all necessary and required public involvement activities associated with amending the LRTP and/or TIP project listings.

#### Product

- A defined methodology to encourage the public to be involved in the air quality conformity process

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Activities completed as needed throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$500
LOCAL	\$125
<b>TOTAL</b>	<b>\$625</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.5.2 Climate Change and Greenhouse Gas (GHG) Emissions

#### Objectives

- FHWA has determined that climate change should be integrated into transportation planning at the state, regional, and local levels and appropriate steps be initiated to instruct and train MPO staff in sources and causes of Greenhouse Gas (GHG) emissions and consider potential long range effects by and to the transportation network:

According to the FHWA report "Integrating Climate Change into the Transportation Planning Process," there is general scientific consensus that the earth is experiencing a long-term warming trend and that human-induced increases in atmospheric greenhouse gases (GHGs) may be the predominant cause. The combustion of fossil fuels is by far the biggest source of GHG emissions. In the United States, transportation is the largest source of GHG emissions, after electricity generation. Within the transportation sector, cars and trucks account for a majority of emissions.

Opportunities to reduce GHG emissions from transportation include switching to alternative fuels, using more fuel efficient vehicles, and reducing the total number of miles driven. Each of these options requires a mixture of public and private sector involvement. Transportation planning activities, which influence how transportation systems are built and operated, can contribute to these strategies.

In addition to contributing to climate change, transportation will likely also be affected by climate change. Transportation infrastructure is vulnerable to predicted changes in sea level and increases in severe weather and extreme high temperatures. Long-term transportation planning will need to respond to these threats.

Introduction to *Integrating Climate Change into  
The Transportation Planning Process*  
- Federal Highway Administration, Final Report,  
July 2008

- Some effects are currently being addressed through Air Quality Conformity Determination actions in areas that have been designated as NAAQS non-conforming.

#### Previous Work

- MPO staff began researching relevant standards and requirements as well as seeking educational and training resources.
- The Transportation Planner has been assigned as the spokesperson for climate change and is preparing for interaction with the public, local government agencies, and interested parties on GHG guidelines and requirements.

Proposed Work

- MPO staff will undergo training in climate change and GHG issues as guidelines are provided by state and federal agencies, and will become familiar with the conceptual framework as provided in FHWA's *Integrating Climate Change into the Transportation Planning Process - Final Report-July 2008*.

Product

- A staff that is conversant on current climate change and greenhouse gas guidelines and requirements

Staffing

- Lee-Russell Council of Governments
- State and Federal Agency Training Personnel

Schedule

- Training dates will be established as sessions are announced.

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$500
LOCAL	\$125
<b>TOTAL</b>	<b>\$625</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

## 3.6 Transportation Systems

### 3.6.1 Long Range Transportation Plan (LRTP)

#### Objectives

- To update the Long Range Transportation Plan (LRTP) to reflect substantive changes in land use assumptions, development plans, traffic volumes, and traffic patterns
- To include a multimodal (automobile, public and private transit, air, freight, bicycle, pedestrian, rail, etc.) element in the LRTP
- To ensure the LRTP follows forthcoming performance management approach requirements
- To promote regional cooperation and coordination in the development of the LRTP to ensure a regional approach to transportation planning

#### Previous Work

- MPO staff aided the LRTP consultant with data collection, public involvement meetings, and other 2040 LRTP-related tasks.
- The consultant prepared the final 2040 LRTP.
- The final 2040 LRTP was approved in August 2015.
- MPO Staff began preparing for the 2045 LRTP update in the Fall of 2018.

#### Proposed Work

- The 2040 LRTP will be amended as needed.
- The MPO will work with a consultant in preparation of the 2045 LRTP.
- The MPO will prepare and present *Livability Indicator* data as required on page 5. The data will be displayed in the Plan as percentages in charts, tables, or maps.
- The MPO will follow forthcoming performance management approach requirements.
- The MPO will promote regional cooperation and coordination in the development of the LRTP to ensure a regional approach to transportation planning.

#### Product

- A comprehensive LRTP that forecasts the transportation and transit needs of the MPO area residents, businesses, and governments
- An LRTP that includes a multimodal transit element

#### Staffing

- Lee-Russell Council of Governments
- Consultant

#### Schedule

- Ongoing activities throughout the fiscal year

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$113,600
LOCAL	\$28,400
<b>TOTAL</b>	<b>\$142,000</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.2 Transportation Improvement Program (TIP)

#### Objectives

- To maintain a financially-constrained FY2016-2019 TIP which describes and details the prioritized list of transportation improvement projects for the Auburn-Opelika MPO Study Area
- To include a multimodal/transit element in the TIP
- To ensure the TIP follows forthcoming performance management approach requirements
- To promote regional cooperation and coordination in the development of the TIP to ensure a regional approach to transportation planning

#### Previous Work

- The FY2016-2019 TIP was amended by resolution in accordance with the State Transportation Improvement Program (STIP).
- MPO staff included a multimodal/transit element in the FY2016-2019 TIP.

#### Proposed Work

- Track and manage the status of projects in the current TIP.
- Amend the FY2016-2019 TIP as needed (including restoration of Financial Constraint).
- Promote public involvement in the TIP process, including the opportunity to comment on the draft TIP, as outlined in the Public Participation Plan (PPP).
- MPO staff will continue to include a multimodal/transit element in the TIP.
- The MPO will prepare and present *Livability Indicator* data as required on page 5. The data will be displayed in the Plan as percentages in charts, tables, or maps.
- The MPO will follow forthcoming performance management approach requirements.
- The MPO will promote regional cooperation and coordination in the development of the TIP to ensure a regional approach to transportation planning.
- The MPO will prepare the FY2020-2023 TIP for approval in late 2019.

#### Products

- A TIP consisting of a prioritized and financially-constrained planning program of projects covering the FY2016-2019 time frame
- A TIP that includes a multimodal/transit element

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year
- FY2020-2023 TIP to be submitted to FHWA by Oct. 1, 2019

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$13,000
LOCAL	\$3,250
<b>TOTAL</b>	<b>\$16,250</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.3 Public Transportation

Lee-Russell Public Transit (LRPT) is the local, demand response public transit system serving Lee and Russell counties. LRPT is operated by LRCOG with the assistance of the Federal Transit Administration and the Alabama Department of Transportation.

#### Objectives

- To ensure the efficient administration and management of the Lee-Russell Public Transit system by maintaining files, client databases, route maps, and other measures to ensure efficiency and productivity
- To ensure public input into the transit planning process
- To evaluate LRPT services to determine if the MPO area needs are being met
- To maintain and enhance public transit system marketing strategies to increase ridership
- To continually evaluate access to essential services such as housing, employment, health care, schools, and recreation

#### Previous Work

- The Lee County Transit Agency (LETA) fixed-route, paratransit and demand response services were merged into Lee-Russell Public Transit (LRPT) which is a demand response-only service.
- Transit operations were run in-house by LRCOG.
- The staff operated and managed the LRPT system according to federal program management guidelines and procedures.
- Staff sought new contracts and renewed existing contracts.
- The capital replacement schedule, budgets, and other necessary financial reports were submitted to the Alabama Department of Transportation.
- The transit staff maintained and updated client databases, service area maps and brochures, required grants and reports, capital replacement schedules, and program management files.
- Information was provided to individuals, passengers, and local agencies by attending public events, distributing brochures on the fleet, and making presentations to interested parties.
- Transit staff answered and investigated complaints and questions concerning the LRPT system.
- Management reports were submitted each quarter in FY2018 and the FY2019 5307 and 5311 grants were submitted.
- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performance measures, and targets required by the FAST Act for inclusion in the LRTP, TIP, and other necessary documentation required by ALDOT.

### Proposed Work

- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performance measures, and targets required by the Fast Act, for inclusion into the Long Range Transportation Plan (LRTP), Transportation Improvement Plan (TIP), and other necessary documentation as required by ALDOT.
- Transit staff will continue to meet program requirements by updating, revising, and distributing information; maintaining program files and client databases; responding to questions and complaints; involving the public in the transit planning process and submitting the required reports and grants.
- Transit staff will annually re-evaluate the existing system and services.
- Transit staff will implement necessary service changes to better serve the community. In cases requiring public participation, Alabama Department of Transportation guidelines will be followed in addition to the process/procedure as outlined in the Public Participation Plan (PPP).
- Transit staff will continue to raise community awareness of LRPT through continuing marketing efforts.
- Should a change in service type from a demand response system be considered, transit staff will evaluate the proposed transportation system's connectivity to essential services such as housing, employment, health care, schools, and recreation and include that determination as a part of the decision making process.

### Products

- An effective and productive transit service that meets the needs of the community
- Increased awareness of the services offered by the LRPT
- Public input in the transit planning process by conducting surveys and public hearings
- Improved resiliency and reliability of the transportation system

### Staffing

- Lee-Russell Council of Governments

### Schedule

- Ongoing activities throughout the fiscal year

### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$5,778
LOCAL	\$1,445
<b>TOTAL</b>	<b>\$7,223</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.3.1 Private Enterprise Participation

#### Objectives

- Establish and maintain contact with private transportation providers in the Auburn-Opelika area

#### Previous Work

- LRCOG developed Coordinated Transportation Plans in 2006, 2008, 2012, 2015, and 2017. A part of each plan detailed LRCOG's efforts to contact local transportation providers in order to inventory their vehicle capacities, operating hours, handicapped capacity, and funding sources.

#### Proposed Work

- The Coordinated Transportation Plan will be reviewed and updated as needed.
- Information collected in the Coordinated Transportation Plan will be used to support the Job Access and Reverse Commute (JARC) program where possible.

#### Product

- An up-to-date accounting of private transportation providers in the Auburn-Opelika area that can be leveraged to provide service opportunities for local citizens

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$408
LOCAL	\$102
<b>TOTAL</b>	<b>\$510</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.3.2 Transportation Disadvantaged Service Plan

#### Objectives

- To effectively provide transportation options to the transportation disadvantaged citizens in Lee and Russell counties

#### Previous Work

- A Mobility Manager was hired to coordinate local efforts and services for the transportation disadvantaged.
- The Coordinated Transportation Advisory Council (CTAC) met as needed.
- The Coordinated Transportation Plan was updated in FY2017.
- A public information brochure detailing LRCOG's available services to the transportation disadvantaged was developed and distributed.
- A database of transportation disadvantaged service providers has been developed as a step towards a toll-free telephone information referral service for the transportation disadvantaged.

#### Proposed Work

- The directory of transportation disadvantaged service providers will be enhanced and maintained.

#### Product

- A comprehensive and up-to-date collection of transportation options for the transportation disadvantaged

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$668
LOCAL	\$167
<b>TOTAL</b>	<b>\$835</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.3.3 Transit Development Plan

The Transit Development Plan (TDP) offers a blueprint of activities and funding support of transit operations over a three to five year span of time. The LRPT Transit Development Plan includes capital and operations activities as well as funding and implementation strategies.

#### Objectives

- The Lee-Russell Public Transit TDP will provide support for the request of federal funding and provide the basis for local governmental participation in capital and operating initiatives.

#### Previous Work

- In FY2019, LRCOG reviewed the TDP to ensure plan compliance.

#### Proposed Work

- In FY2020, LRCOG will review the TDP and implement other plan options as funds become available.

#### Product

- An up-to-date Transit Development Plan for Lee and Russell counties

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$408
LOCAL	\$102
<b>TOTAL</b>	<b>\$510</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.4 Bicycle and Pedestrian Transportation Planning

#### Objectives

- To maintain data that would be used to develop a consolidated Bicycle and Pedestrian Plan and Network Map for the AOMPO
- To assist the Bicycle and Pedestrian Committees of the local governments in identifying funding sources for bicycle and pedestrian projects
- Promote USDOT bicycle and pedestrian guidelines

#### Previous Work

- The MPO has maintained contact with the Bicycle and Pedestrian Committees of the local governments.
- The MPO maintained contact with the ALDOT Safe Routes to School administrator.
- Staff developed a Bicycle and Pedestrian Plan in FY2016 that conforms to current transportation legislation requirements.
- Final Bicycle and Pedestrian Plan, Fall 2016

#### Proposed Work

- The MPO will reconvene the Bicycle and Pedestrian Committee as needed.
- Staff will provide assistance to the Bicycle and Pedestrian Committee of the member governments of the AOMPO.
- Staff will assist in project implementation by identifying funding sources for bicycle and pedestrian uses.
- Staff will continue to work with the state on the Safe Routes to School program and other initiatives.
- Staff will update the Bicycle and Pedestrian Plan as needed.

#### Product

- Technical assistance and coordination for the implementation of bicycle and pedestrian projects among local governments
- Updated Bicycle and Pedestrian components for the LRTP and TIP
- An updated Bicycle and Pedestrian Plan

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$4,098
LOCAL	\$1,025
<b>TOTAL</b>	<b>\$5,123</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.5 Freight Planning

#### Objectives

- To prepare for future integration of freight transportation as an essential component of the transportation planning process, including assessment, evaluation, and recommendation of future development strategies in support of LRTP and TIP projects. The freight network assessment will encompass all applicable modes: truck, rail, river, and air. Further consideration will be given to intermodal operations involving some or all of the above modes: truck/rail, rail/river-port, truck/air, and inland port operations.

#### Previous Work

- MPO staff continued to monitor current Freight Planning tools and techniques.

#### Proposed Work

- LRCOG and MPO transportation staff will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performance measures, and targets required by the FAST Act concerning freight movements and operations in the planning area.
- LRCOG and MPO transportation staff will review existing Freight Planning activities.
- LRCOG and MPO transportation staff will identify regional multimodal/intermodal transportation facilities and associated freight movement, and assess potential economic and infrastructure impacts to the freight movement network.
- If required by state and federal agencies, staff will draft and forward for approval a Regional Freight Plan according to guidelines as provided by those agencies, with particular emphasis on general and special commodity movement via commercial trucking or truck/rail operations.
- Staff will provide modeling support for the Freight Plan as needed or directed.
- LRCOG and the MPO transportation staff will seek out training and educational opportunities to improve understanding of freight movement and planning needs.
- As an adjunct to Freight Planning activities, the MPO will develop and incorporate outreach strategies into the LRTP, TIP, and Public Participation Plan (PPP). This would include interaction with local governments, agencies, and ad hoc public interest groups.
- Staff will provide Freight Planning information for the Long Range Transportation Plan and the Transportation Improvement Program as required.
- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performances measures, and targets required by the FAST Act for inclusion in the LRTP, TIP, and other necessary documentation required by ALDOT.

#### Product

- An MPO staff well-versed in freight planning guidelines and prepared to meet future freight planning requirements

#### Staffing

- Lee-Russell Council of Governments

Schedule

- Activities scheduled as needed throughout the fiscal year

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$509

<b>TOTAL</b>	<b>\$636</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.6.6 Transportation Management and Operations Planning

#### Objectives

- To assist local governments with Transportation Management and Operations Planning by advocating and supporting a regional transportation system where management and operation functions are actively and continuously coordinated

#### Previous Work

- Staff monitored current Transportation Management and Operations Planning coordination strategies and techniques.

#### Proposed Work

- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performances measures, and targets required by the FAST Act concerning access management in the planning area.
- The MPO will be prepared to coordinate forums where local governments and ALDOT can discuss Transportation Management and Operations Planning.
- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performances measures, and targets required by the FAST Act for inclusion in the LRTP, TIP, and other necessary documentation required by ALDOT.

#### Product

- Coordination and implementation of Transportation Management and Operations Planning forums as requested

#### Staffing

- Lee-Russell Council of Governments
- ALDOT
- Local government staff

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$509
LOCAL	\$127
<b>TOTAL</b>	<b>\$636</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.7 Education and Training

#### Objectives

- To develop and maintain a transportation planning staff that is current and conversant on required policies and procedures, transportation modeling techniques, GIS, and other technical items employed in the transportation planning process

#### Previous Work

- Staff attended ALDOT training courses, statewide MPO meetings, GIS conferences, and user group meetings as well as technical training seminars and webinars.
- Staff maintained subscriptions to transportation periodicals.
- Staff worked with Auburn University to develop MPO Training Modules.

#### Proposed Work

- The MPO staff will attend state and federal training conferences, statewide MPO meetings, and technical training seminars and webinars.
- LRCOG will continue to procure the necessary resources (e.g., books, journals, articles) to help MPO staff stay current on transportation planning innovation, thought, and methodology.
- Staff will provide user support to member governments and groups pertaining to the advancements in technology and transportation policy.

#### Product

- A transportation planning staff that is well-versed in the policy, modeling, socio-economic, and geographic information elements of the transportation planning process.

#### Staffing

- Lee-Russell Council of Governments
- ALDOT and FHWA staff
- Conference and seminar staff

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$23,318
LOCAL	\$5,830
<b>TOTAL</b>	<b>\$29,148</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.8 Transportation Safety and Security Planning

#### Objectives

- To incorporate transportation safety and security in the transportation planning process

#### Previous Work

- The Safety and Congestion Management Committee has met as necessary since 1998.

#### Proposed Work

- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performances measures, and targets required by the FAST Act concerning safety in the Metropolitan Planning Area.
- Hold any necessary Safety and Security Committee meetings to discuss safety and security issues and develop programs related to these issues.
- Utilize the Critical Analysis Reporting Environment (CARE) system to identify any hazardous areas that may need to be addressed.
- Staff will monitor accident data in the MPO Study Area.
- The MPO will work and coordinate with the Alabama Department of Transportation (ALDOT) on setting goals, objectives, performances measures, and targets required by the FAST Act for inclusion in the LRTP, TIP, and other necessary documentation required by ALDOT.

#### Products

- A transportation planning process that considers safety and security issues
- A safety component will be included in the Long Range Transportation Plan (LRTP), Bicycle and Pedestrian Plan, and the FY2020-2023 Transportation Improvement Plan (TIP)
- A Continuity of Operations Plan (COOP) that addresses the actions of the AOMPO staff in the event of a natural or man-made disasters

#### Staffing

- Lee-Russell Council of Governments

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$3,500
LOCAL	\$875
<b>TOTAL</b>	<b>\$4,375</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.9 Future Planning Projects

#### Objectives

- To prepare and maintain all multi-year planning documents (LRTP, TIP, PPP, Bicycle and Pedestrian) in accordance with state and federal requirements.

#### Previous Work

- The final 2040 LRTP was approved in August 2015.
- MPO Staff began preparing for the 2045 LRTP update in the Fall of 2018.
- The FY2016-2019 TIP was approved in September 2015.
- The 2014 PPP was approved in May 2014.
- The AOMPO Bicycle and Pedestrian Plan was adopted October 2016.

#### Proposed Work

- The 2040 LRTP will be amended as needed.
- The MPO will work with a consultant in preparation of the 2045 LRTP.
- The MPO will prepare the FY2020-2023 TIP for approval in August 2019.
- The MPO will prepare the FY2020-2023 PPP for approval in August 2019.
- The MPO will amend and update the AOMPO Bicycle and Pedestrian plan on an as needed basis.

#### Product

- A comprehensive LRTP that forecasts the transportation and transit needs of the MPO area residents, businesses, and governments.
- A TIP consisting of a prioritized and financially-constrained planning program of projects covering the FY2016-2019 time frame
- An LRTP and TIP that includes a multimodal transit element.
- A defined methodology to encourage and ensure public participation in the transportation planning process that meets all state and federal requirements
- Technical assistance and coordination for the implementation of bicycle and pedestrian projects among local governments
- Updated Bicycle and Pedestrian components for the LRTP and TIP
- An updated Bicycle and Pedestrian Plan

#### Staffing

- Lee-Russell Council of Governments
- Consultant

#### Schedule

- Ongoing activities throughout the fiscal year

Funding Source

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$148,798
LOCAL	\$37,200
<b>TOTAL</b>	<b>\$185,998</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

### 3.9.1 Opelika Bicycle and Pedestrian Master Greenway Plan

#### Objectives

- To provide a master plan for the development of pedestrian and bicycle facilities in the City of Opelika, as well as a guide for the development of greenways both on public rights-of-way and private land.

#### Previous Work

- Assisted the City of Opelika in identifying an available funding source for a bicycle and pedestrian master greenway plan.

#### Proposed Work

- Create a plan for the development of pedestrian and bicycle facilities city wide.
- Develop a guide for the development of greenways on public and private lands city wide.
- Establish developmental guidelines, standards, and locations of greenways city wide.
- Staff will provide assistance to the City of Opelika.
- Staff will assist the City of Opelika in project implementation by providing technical assistance on an as needed basis.
- Staff will assist the City of Opelika by identifying current transportation legislation requirements.

#### Product

- Technical assistance and coordination for the implementation of bicycle and pedestrian, and greenway projects for the City of Opelika.
- 

#### Staffing

- Lee-Russell Council of Governments
- City of Opelika
- Consultant

#### Schedule

- Ongoing activities throughout the fiscal year

#### Funding Source

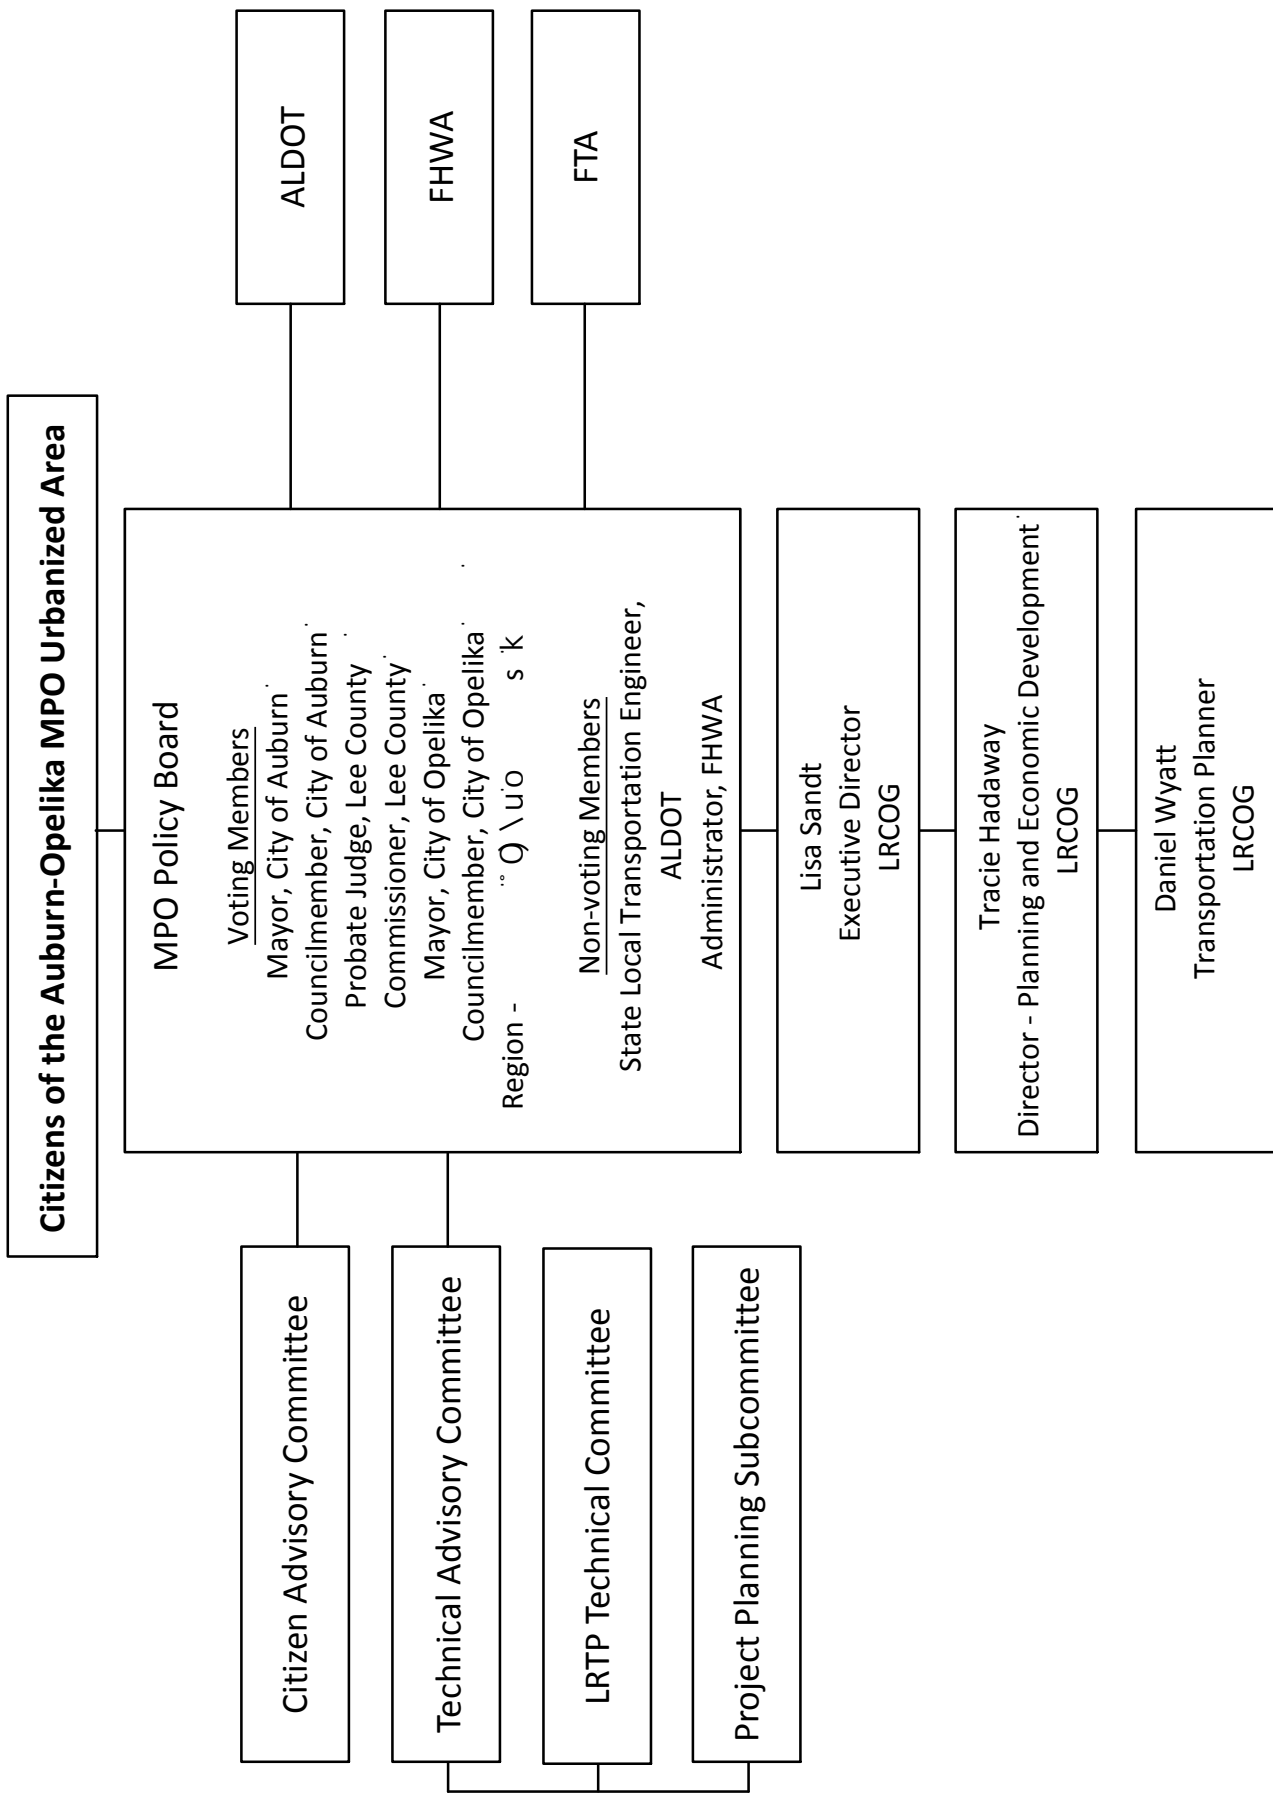

<b>FUNDING SOURCE</b>	<b>AMOUNT</b>
PL	\$120,000
LOCAL	\$30,000
<b>TOTAL</b>	<b>\$150,000</b>

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

**Appendix D**  
**Financial Constraint Data, Tables and Reports**  
**TABLE 1: FY2020 Transportation and Transit Planning Funding - Overview**

Task	Task Description	Prior Years'		Total FY20 Planning Funds	2020 Local Match	SPR	State	Total FY20 Funds/Match
		PL- FHWA/FTA Carryover	2020 PL- FHWA/FTA					
Task 3.1	Administration	\$7,260	\$96,000	\$103,260	\$25,815			\$129,075
Task 3.2	Data Collection and Analysis		\$59,444	\$59,444	\$14,861			\$74,305
Task 3.3	Unified Planning Work Program		\$7,617	\$7,617	\$1,904			\$9,521
Task 3.4	Public Involvement	\$2,000	\$4,816	\$6,816	\$1,704			\$8,520
Task 3.5	Environmental Mitigation and Streamlining		\$1,500	\$1,500	\$375			\$1,875
Task 3.6	Transportation Systems	\$110,000	\$28,978	\$138,978	\$34,745			\$173,723
Task 3.7	Education and Training	\$11,722	\$11,596	\$23,318	\$5,830			\$29,148
Task 3.8	Transportation Safety and Security Planning		\$3,500	\$3,500	\$875			\$4,375
Task 3.9	Future Planning Projects	\$24,155	\$124,643	\$148,798	\$37,200			\$185,998
	State Research and Planning					\$50,000	\$12,500	
<b>GRAND TOTAL</b>				<b>\$155,137</b>	<b>\$338,094</b>	<b>\$493,231</b>	<b>\$123,308</b>	<b>\$616,539</b>

Note: Numbers were rounded under the individual tasks to conform to the 80/20 rule ratio and not rounded further in the tables. Totals here are consistent with individual Task and Sub-task totals, and carried forward to Table 2.

MPO Staff are projecting \$155,137 in carryover from FY2017, FY2018, & FY2019 which will be allocated to Task 3.1, Task 3.4, Task 3.6, Task 3.7, & Task 3.9.

Prior Years' PL-FHWA/FTA Carryover shown as Federal (80%) amount only.

FY2017=\$0 FY2018=\$0 FY2019=\$155,137

FY2017, FY2018, FY2019 Carryover confirmed by ALDOT and/or estimated by LRCOG Staff

Task 3.9 includes \$120,000 in additional PL funds awarded to the City of Opelika for a Bicycle and Pedestrian Master Greenway Plan

Note: FHWA PL and FTA 5303 planning funds have been consolidated into the PL category.

Note: MPOs may carry over funds for 3 years. The oldest unexpended funds will be returned to the funding pool for reallocation.
